

Parent Contact

It is important that parents keep the school informed of all up-to-date contact addresses, telephone and mobile phone numbers in case it is necessary to contact them during the school day.

Parent Evenings and Reports

All parents will be given at least two opportunities during the course of each year for a formal interview with the class teacher to discuss their child's progress. These parent evenings will be held towards the end of the autumn term and early in the summer term.

However, it must be stressed that parents can speak on a daily basis with the class teachers and that, if required, a formal meeting can be arranged at any mutually agreeable time.

Written reports are not provided as a matter of course but, if requested, an annual written report can be supplied.
